SECTION 09

INTEGRATED MANAGEMENT SYSTEM POLICY

Rainbow is committed to provide quality products & services by provisioning resources for thermal spray, slurry coating, tubular connections, machine shop, welding, overhauling of rotating equipment and refurbishment of engine components. Rainbow's Integrated Management System (IMS) will comply to ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, API Spec. Q1 9th Edition, OSHAD & all applicable statutory and regulatory requirements.

As an organization our focus is to continually improve our Integrated Management System to ensure that it meets our customers' requirements & expectations. We believe that consulting with and participation by all interested parties of Rainbow is vital for a sustainable business operation.

To ensure the overall success of our IMS we will:

- Review and communicate the IMS policy to all interested parties periodically.
- Carry out continuous risk assessment of our operations and identify new risks & opportunities from internal & external issues affecting our organization.
- Eliminate quality related non-conformities by implementing corrective actions
- Improve on time delivery of jobs handled.
- Identify and make necessary provisions of resources to ensure growth of the organization.
- Improve efficiency in operations by minimizing waste and recycle/reuse waste where possible to reduce overall environmental impact of our operation.
- Provide safe working conditions to eliminate work related injuries and ill health.
